Homework 9

Questions:

1.
   a. You use the python `pacman.py --layout testMaze --pacman GoWestAgent` command.
   b. Yes, it is possible for the pacman to win using this layout and agent.

2.
   a. You use the `python pacman.py --layout tinyMaze --pacman GoWestAgent` command.
   b. No, it is not possible for the pacman to win this game using this layout and agent.

3. The effectiveness of this strategy is that the agent can move at random, allowing the agent to move to different positions rather than just west.
